A flourishing community built on faith

Breadsall C of E Primary School Reading Spine

Intent

The aim of this reading spine is to provide an extensive list of books which teachers can apply to their own long-term plans. These are books to use as class reads, study books for writing and whole class reading, recommendations for reading corners or for extracts (taken from them to look at in greater detail).

The Reading Spine includes a good balance of topic-appropriate non-fiction that should also be read to help further develop children's background knowledge of the subjects and topics that they are studying.

The intention is that by the time our pupils have reached year 6 and beyond, they have developed a wide, rich vocabulary and broader knowledge of the world and, as a result, are able to access the more complex books expected of them in secondary schools.

The Spine will be an ever-evolving document which will consider newly released books and other recommendations from the teaching profession.

In order to fulfil the aim to ensure our children are prepared and ready to access those texts expected of them at Secondary school our reading spine has been informed by Doug Lemov's 5 Plagues of Reading. These include:

Archaic Texts - The vocabulary, usage, syntax and context for cultural reference of texts over 50 or 100 years old are vastly different and typically more complex than texts written today.

Non-Linear Time Sequences - A story narrated in a given style with a given cadence and that cadence endures and remains consistent, but in the best books, books where every aspect of the narration is nuanced to create an exact image, time moves in fits and starts. It doubles back or is non-linear in execution.

Narratively Complex - Multiple, unreliable or non-human narrators which often create multiple plot-lines or alternative view points

Complexity of Plot/Symbol - Stories which can be steeped in figurative language and often exist on an allegorical or symbolic level, sometime complex in plot and structure.

Resistant Texts - Texts written to deliberately resist easy meaning-making by readers. Perhaps half of the poems ever written fall into this category. You have to assemble meaning around nuances, hints, uncertainties and clues.

Reading Spine is be made up of different Spines for organisation:

Curriculum Spine- Including linked texts -Fiction, Non-fiction, Poetry, Song Lyrics, Influential/Key people and some 5 plagues of reading texts

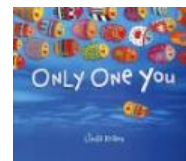

Author Spine- Each class will have a key author for each term- this can be linked to core text.

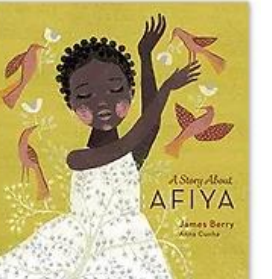

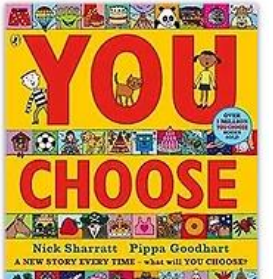

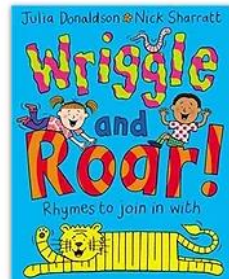

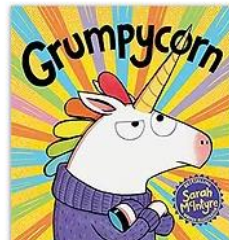

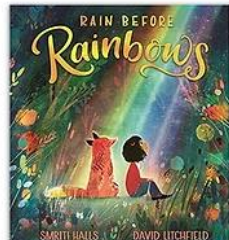

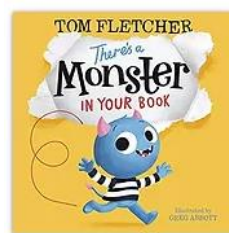

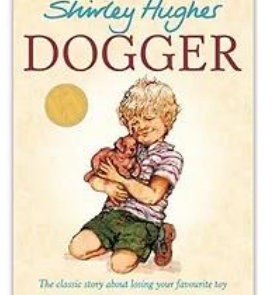

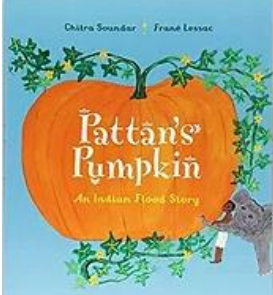

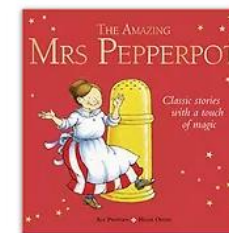

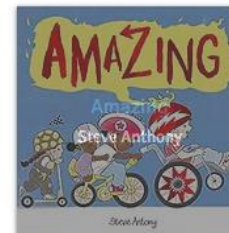

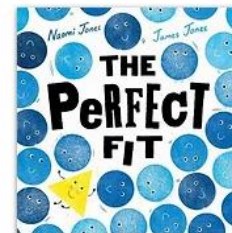

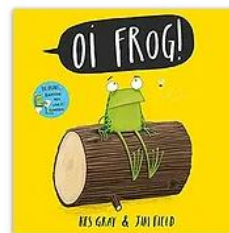

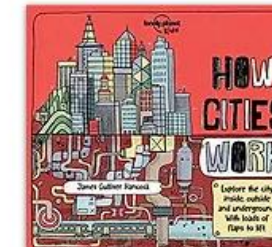

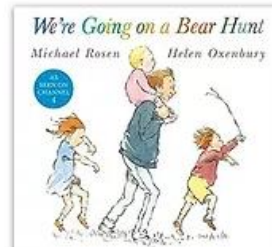

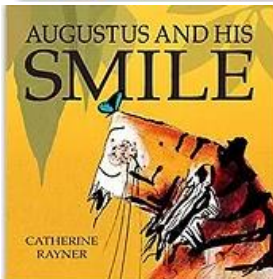

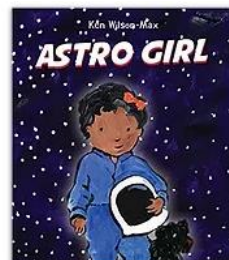

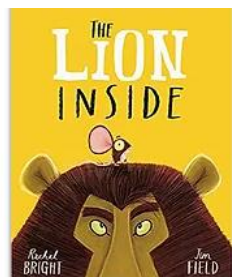

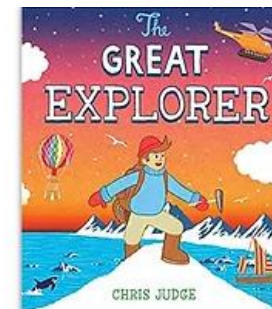

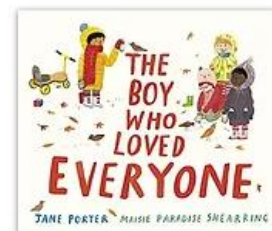

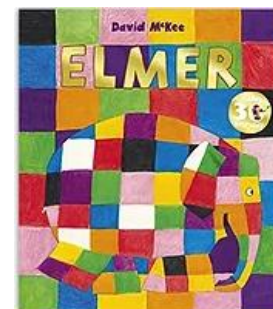

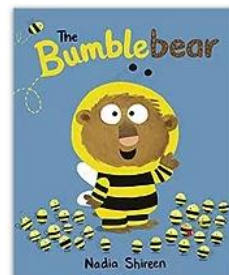

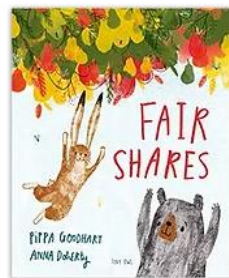

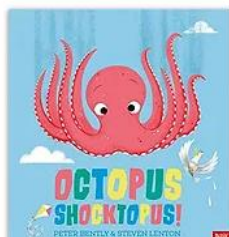

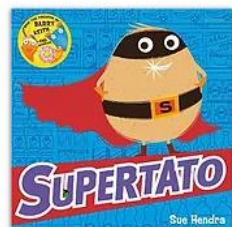

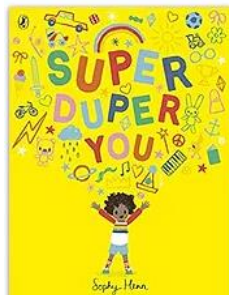

Read for Pleasure Spine- Including some 5 plagues of reading texts and texts that will be made available in class libraries/whole school library.

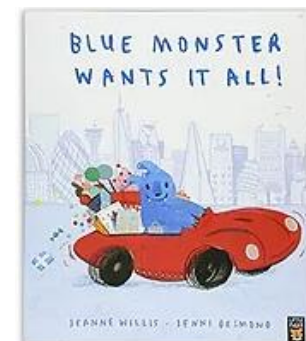

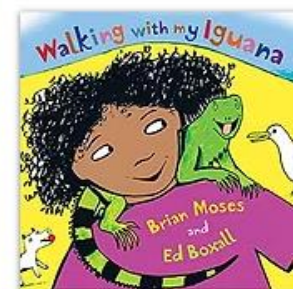

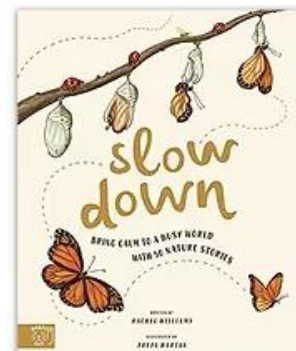

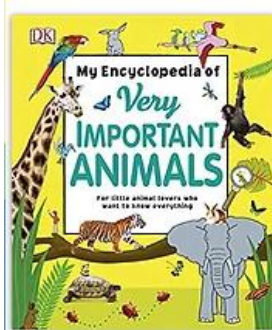

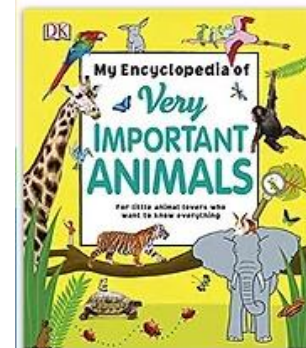

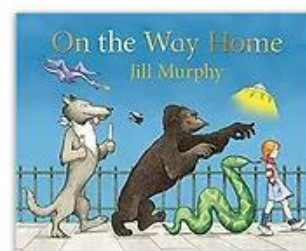

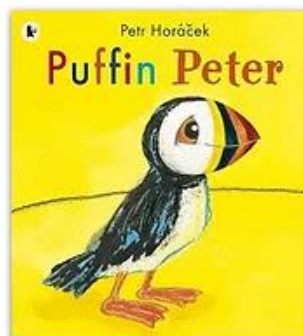

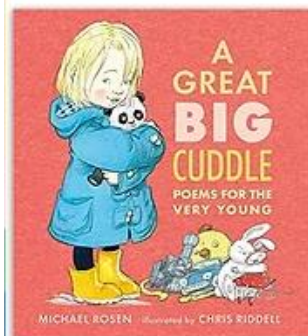

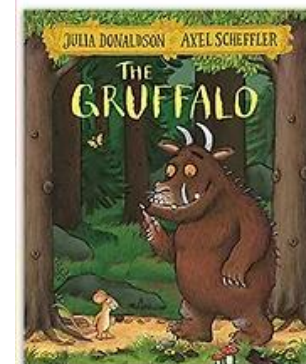

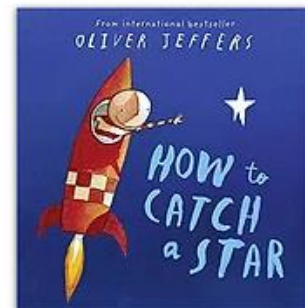

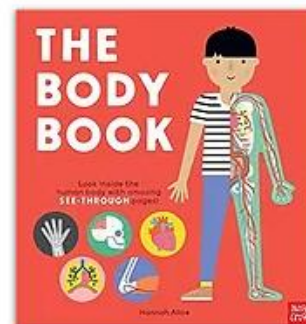

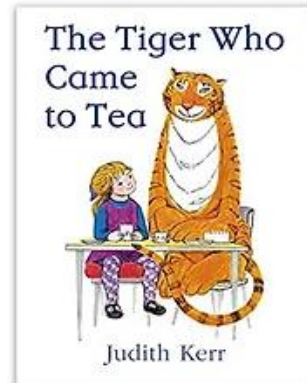

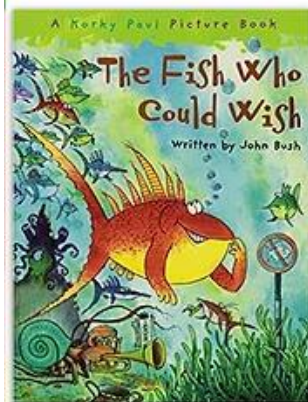

Reception		Author Spine
